When David had made an end of speaking of his slaying the giant Goliath Jonathan loved him as his own soul And Saul took David on that day and would not permit him to go home to his fathers house. Then Jonathan and David made a covenant because of Jonathan's wonderful love greater than the love of women And Havid went out, whithersoever of the servants of Saul

When David had returned from smiting the Philistine the women came forth out of all the cities of Israel, singing and dancing, to meet King Saul with tambourines, with swered one another Saul hath slain

And Saul was vory angry and thousands and to me they have given coived in hate it was executed in the the thousands, and all that he lacketh spirit of revenge an it made the now yet is only the kingdom And judge and the jailor and the juiors the Saul looked jealously on David from accomplices in a murder at the laws that day and forward

And on the morrow an evil spirit he spoke foolish things in the midst of with his hand on the harp, as on hand of Saul And Saul east the spear through even on the wall And David turned aside out of his presence because the Lord was with him and from baul He was departed. We have a museum in New York The Lord Set a Mark Upon Cain, Lest He Should Be Killed.

ve Need a Change of Heart In Our it titude Toward Criminals—Men Should Be Given Greater Opportunities

Special Correspondence of IHEG AZELLE greater opportunities Merely require CINCINNATI, August 10 - Causes of Mob Violence This was the subject

for a text the fifteenth versa of the fourth chapter of Genesis

The Lord set a mark upon Cam est any finding him should kill him Rev Bigelow said in part In the treatment of this primeval murderer Cam, more good sense was shown than can be found anywhere in the civil zed world today You may take thus Gen esis story for a statement of fact or

Reflect upon the course which the Lord is said to have pursued with Cain after the crime - It may not be history but it is sound philosophy Cain's murder made him an outcast

you may take it for a work of fiction

No matter

Henceforth he was an object to be shunned His crime had set him apari from society. This was his inevitable punishment But he was not to be murdered because he was a murderer He was to be protected against the volence of the mot He was permit ted to depart into the wilderness. There he founded a city which he called after the name of one of his sons Ven geance was not visited upon h m He was banished beyond the pale of the society which he had offended But he was not denied the right to work out his own salvation 'Vengeance : mine I will repay '

What is the meaning of this epidemic of mob violence" It is an outburst of the spirit of revenge. The populace still looks upon the punishment of the law as society's method of getting even And when the law is slow it sees nothing out of place in wreaking its own vengeance upon oftenders Be tween the ordinary hanging and a lynching the only difference to the average mind is a question of formali ties The spirit is the same. It is the thirst of blood for blood. If the state may strike back why not the mob If t is proper to take revenge, why be fastidious about the method? That is

Popular government is at stake we need too, a change of heart in our attitude toward criminals The state as well as the mob must know that all revenge is crime. We still be lieve as Whittier said-

Here is the chamber of hourer from God came suddenly over Saul and where men are officially executed There is the chair There is the lever the house, while David was playing by which the current is turned on The guard will tell you who last died there This man went to the chair protesting his innocence. That one went with curses on his lips One was prostrated so that they had to carry nm One nearly succeeded in commit ting suicide and robbing the law of its murderous function

I declare that in some respects the urders committed in our penitentia mes are more hateful than those committed by the mob. The law is more ways, and the Lord was with him or less deliberate in the choice of its rictim To that extent the innocent successful he was in dread of him But are protected. But if there is any thing more dastardly than the violence of the mobit is the cold, calculating studied legal murder which the state And Michal Saula daughter loved commits against social offenders For almost without exception it is true
